

Experimental median activity–abundance res

PTEN: 379 residues
Spearman's rho = -0.34

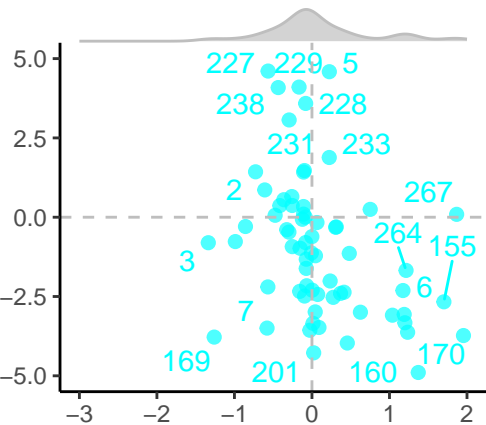

Experimental median activity–abundance res

34 Active sites
Spearman's rho = -0.26

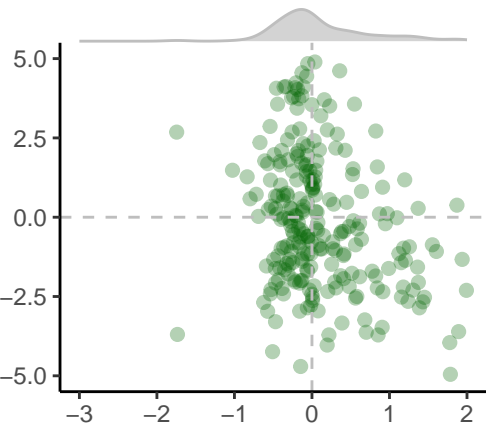

Experimental median activity–abundance res

78 Binding sites
Spearman's rho = -0.44

Experimental median activity–abundance res

267 non-orthosteric sites
Spearman's rho = -0.25

Experimental median activity–abundance res
